

Components · library

The main instances every component is built on. Penpot keeps each original as a real shape, so they have to live somewhere.

The masters

This image is a detailed design system component library, organized into several sections.
ICONS: Includes a set of utility icons (file, link, search, undo, redo, etc.) and a set of navigation icons (home, back, forward, etc.).
ACTIONS: Displays button styles (Primary, Secondary, Disabled) in both solid and outlined forms, a Floating Action Button (FAB), and various chip styles (plain, with checkmark, with 'Diff' text).
INPUTS: Shows text fields with labels, a field with a clear button, a search bar, checkboxes (checked and unchecked), radio buttons (selected and unselected), a switch, a slider, and a column field with a placeholder.
CHOICE: Features segmented controls with 2 and 3 options, and a set of tabs labeled 'First', 'Second', and 'Third'.
SELECT CONTROL: Shows two styles of dropdown menus.
CHROME: Includes a panel toggle with multiple icons, a theme toggle, a status mark with colored letters, a badge, a column grip, and a toolbar button.
PROGRESS BAR: Shows a progress bar with a dark green fill and a light green gradient.
SURFACES: Includes a card and a menu with three options, the first of which is selected.
NOTICE BAND: Shows a notice band with a message and an 'Action' button.
SNACKBAR: Shows a snackbar with a message 'Three items were saved' and an 'UNDO' button.
POPOVER: Shows a large, empty popover box.
SCRIM: Shows a dark gray rectangular scrim.
DIALOG: Shows two dialog boxes. The first has a title 'One' and two buttons labeled 'One' and 'Two'. The second has a title 'One' and three buttons labeled 'One', 'Two', and 'Three'. Both dialogs contain placeholder text: 'What this dialog is asking about, in one or two lines that say what happens next.'
