

GLYPHS	
Icon Icon 24dp glyphs on a 16 grid. 2px strokes, no fills — the colour is the control's. 16dp inside a button. USED IN Every control with a glyph	ui folder link search chevron check close plus upload download git commit push pull fetch no-git
ACTIONS	
Button FilledButton · OutlinedButton 48 tall, radius 8. Glyph and label centred together, 10 gap. Primary is the one action a surface is for; unavailable is a kind, not a state. Primary Secondary Disabled Primary · Icon Secondary · Icon Disabled · Icon	
GLYPHS	
Fab FloatingActionButton 56 square, radius 8, on the primary container. One per screen at most. USED IN One per screen at most	
Chip FilterChip · AssistChip Rest, selected and unavailable, each with or without a leading check. The Diff chip in the mode bar is one. Diff Diff Diff Rest Selected Disabled Rest · Icon Selected · Icon Disabled · Icon	
INPUTS	
Text field TextField Outlined only, 56 tall. The label sits in the box and floats to the top on focus, which is the whole of the widget's behaviour. Label Label Option two Rest Focused	
Column field	
Column field TextFieldBoxWidget The small field a side column holds — search, replace. 28 tall, and drawn rather than decorated, so an empty one is not shorter. USED IN Search · replace	Placeholder
Field clear IconButton 16 at the field's trailing edge, in text_muted. Present only while the field has something in it. USED IN Every field that can be emptied	
Search bar SearchBar Leading glyph and a hint rather than a label. Same radius as the field, so the two agree. USED IN Toolbars · lists	Search
Checkbox Checkbox An 18 box inside a 48 target. One item, or all of them. Unchecked Checked	
Radio	
Radio Radio One of a set. 20 circle, 10 dot. Off On	
Switch	
Switch Switch A setting that takes effect at once. The thumb grows from 16 to 24 when on — the size change is the state. Off On	
Slider	
Slider Slider A continuous value. 4 track, 20 thumb. USED IN Settings	
CHOICE	
Segmented · 2 SegmentedButton One choice out of a few. The chosen one takes the mark, so the state is not colour alone. One Two One selected Two selected	
Segmented · 3 SegmentedButton The same control at three segments — the mode bar's Source · Split · Preview. One Two Three One selected Two selected One Two Three Three selected	
Tabs TabBar 48 tall, a 3px indicator. For panels that stack views, never for navigation. First Second Third	
Select control	
Select control OutlinedButton · MenuAnchor A value that is a control, not a label: choosing starts here. Option one Option one Default Open	
CHROME	
Panel toggle IconButton 28 × 22. Outline and divider are always drawn; the strip fills when that panel is open. left open left closed right open right closed bottom open bottom closed	
Theme toggle IconButton The panel toggle's grammar with one half filled, so the three read as one set. theme	
Status mark	
Status mark Container A letter as well as a colour, because roughly one in twelve men cannot separate red from green. M A D R N C Modified Added Deleted Renamed New Conflicted	
Badge Badge The pending or unread mark, beside the thing it marks. Item name a row with something pending	
Column grip	
Column grip MouseRegion Three 2px dots at half the window's height, inside a gutter. It is the only thing that says a width can be dragged. USED IN Gutters between columns	
Toolbar button IconButton 28 square, radius 8, a 24 glyph centred. Seventeen of them are the formatting bar. B	
Progress bar	
Progress bar LinearProgressIndicator A 3px strip across the top of the panel that owns the request. Drawn only while one is in flight. USED IN The git column, while it waits on the remote	
SURFACES	
Card Card Radius 8, a 1px border and no shadow. It sits in the page. USED IN Lists of things to open	
Popover OverlayPortal The card that floats. The shadow is the difference — a surface that leaves the page says so, and one that does not must not borrow it. USED IN The branch switcher	
Menu MenuAnchor · PopUpMenuButton Radius 8, 48 rows, the overlay shadow. A popover anchored to the control that opened it. Option one Option two Option three	
Dialog AlertDialog Two variants, two actions and three. 400 wide, radius 8, 24 padding; the actions are stacked full width, the safe one first. Discard changes? You have edits that were never saved. They will be kept. One Two Discard changes? You have edits that were never saved. They will be kept. One Two Three Two actions Three actions	
Scrim ModalBarrier Black at 55%, resized to the window. A dim is not part of the card, so every modal dims by the same amount. Plain Dimmed	
Notice band ColoredBox h 36, the width of the document area. <role>_soft fill and no rule of its own; sentence left, one action right. Something happened, and this is what to do about it. Action	
Snackbar	
Snackbar Snackbar The outcome of an action that succeeded, on the inverse surface. Three items were saved UNDO	
After an action succeeds
