

Brand

One shape — a commit on the trunk — used twice: inside a document on the icon, and as the O of the wordmark. [tools/brand.py](#) is the source of the marks.

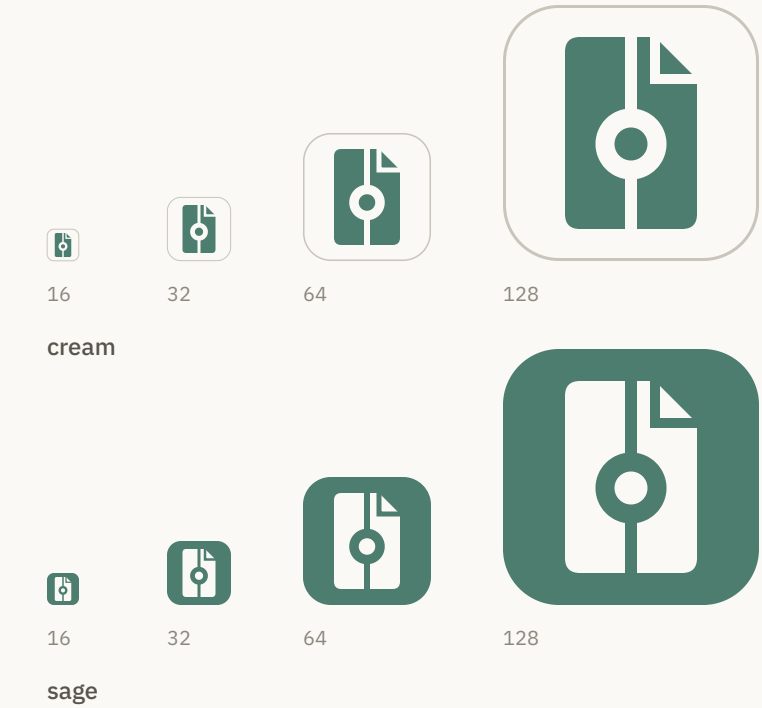

LOCKUP

Cream tile — the hairline keeps it off a white dock

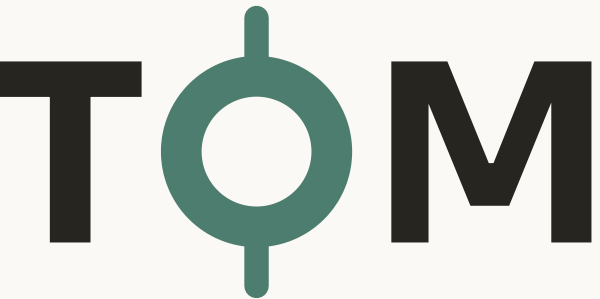

Sage tile — where the tile itself must carry the colour

THE ICON AT THE SIZES IT IS JUDGED AT

WORDMARK

Sora Bold kept as outlines, so nothing depends on a font being installed. The O is the commit, and the trunk runs through it.

ON A DARK SURFACE
