

Every control the product draws, the library they come from, and where each one is used.

Icon Icon 24dp glyphs on a 16 grid, 2px strokes, no fills — the colour is the control's. 16dp inside a button. Grows one glyph at a time.	folder search chevron check upload
USED IN Every control with a glyph	
Button FilledButton · OutlinedButton · TextButton 48 tall, radius 8 — the product's own, measured off Home; not Material's 40 and stadium. Glyph and label centred together.	Filled Filled · Icon Outlined Text
USED IN Home · Committing · Push rejected · the top bar (Fetch, Push)	
Fab FloatingActionButton 56 square, radius 16, on the primary container. One per screen at most.	+
USED IN None yet — reserved	
Text field TextField 56 tall, Filled is Flutter's default; the label floats on focus, which is the whole of the widget's behaviour.	Branch Filled · rest Branch feat/file-tree Filled · focused Branch Outlined · rest
USED IN Commit message · Branch name	Branch feat/file-tree Outlined · focused
Search bar SearchBar Leading glyph and a hint rather than a label. Same radius as the field, so the two agree.	Search this space
USED IN Explorer (M2) · Branch switcher	
Checkbox Checkbox An 18 box inside a 48 target. Stage one file, or all of them.	Unchecked Checked
USED IN Committing	
Radio Radio One of a set. 20 circle, 10 dot.	Off On
USED IN None yet — reserved	
Switch Switch A setting that takes effect at once. The thumb grows from 16 to 24 when on — the size change is the state.	Off On
USED IN Settings (M3)	
Slider Slider A continuous value. 4 track, 20 thumb.	
USED IN None yet — reserved	
Chip FilterChip · AssistChip 32 tall, radius 8. Rest dates a control (it arrives in that milestone); Selected is a filter that is on.	Diff Diff Rest Selected
USED IN Explorer search (M2) · Clone (M3) · Branch control on MD screens (M1)	
Segmented SegmentedButton The mode bar. The selected segment takes the check, so the state is not colour alone.	Source Split Preview Source Split Preview
USED IN Every screen with a space open	Source Split Preview Preview
Tabs TabBar 48 tall, a 3px indicator. For panels that stack views, never for navigation.	Changes History Branches
USED IN Git panel (M1)	
Branch control OutlinedButton · MenuAnchor The branch is a control, not a label: switching starts here.	main main Default Open
USED IN The top bar of every screen with a space open	
Diff mark Container The product's own — no Material equivalent. A letter as well as a colour, because roughly one in twelve men cannot separate the red from the green.	M A D Modified Added Removed
USED IN Committing · File history	
Badge Badge The unsaved / unread mark, beside the thing it marks.	roadmap.md an explorer row with unsaved changes
USED IN Explorer row · Mode bar	
Card Card Elevated: radius 12, elevation 1, no border.	
USED IN Home — recent spaces	
Menu MenuAnchor · PopupMenuButton Radius 12, elevation 2, 40 rows. This is what a popover is in Flutter; there is no other one.	main feat/file-tree feat/source-mode
USED IN Branch switcher	
Dialog AlertDialog Radius 12, 24 padding, actions right as text buttons.	Switch branch? You have unsaved changes in two documents. They will be kept. Cancel Switch
USED IN Blocked branch switch (M1)	
Snackbar Snackbar The outcome of an action that succeeded, on the inverse surface.	Pushed 3 commits to origin/main UNDO
USED IN Push · Commit	

Icon Icon 24dp glyphs on a 16 grid, 2px strokes, no fills — the colour is the control's. 16dp inside a button. Grows one glyph at a time.	folder search chevron check upload
USED IN Every control with a glyph	
Button FilledButton · OutlinedButton · TextButton 49 tall, radius 9 — the product's own, measured off Home, not Material's 40 and stadium. Glyph and label centred together.	Filled Filled · icon Outlined Text
USED IN Home · Committing · Push rejected · the top bar (Fetch, Push)
